

Environmental Noise Studio release notes

Revision Number	Date	Notes/Features
Rev:2.2.0.0	06/11/2025	Bugs <ul style="list-style-type: none"> • Reports and Globals not loading correctly • Local parsing writes 0 for values not available on globals • Incomplete and messy loading from local • Ns-Sis does not calculate indices when measurements have more bands than required • Local parser setup
Rev:2.1.1.0	03/10/2025	Bugs <ul style="list-style-type: none"> • NS-ENS String loading measures
Rev:2.1.0.1	22/09/2025	Bugs <ul style="list-style-type: none"> • Source overlap • Statistical analysis doesn't work • L95 as a residue in environmental analysis • Unidentifiable residual noise
Rev:2.0.15.0	30/07/2025	Bugs <ul style="list-style-type: none"> • Changing password by application does not work • NsSis - Calculation of low and high frequency extended field matching terms is incorrect • NSis - Incorrect adaptation calculation in case of impact sound insulation • NsSis - Partition Level Chart decreases visible area • NsSis - NSEns - Project loading can take a long time • Clearing measurements does not completely clean the database • Local parsing doesn't work • NS-Ens Leq between cursors no longer works • NsSis - Program bursts with facade measurements > 3.15KHz • Reference not calculated in the report • NsSis - Unsaved Project • NsSis - Partitions not visible in Wizard Features

Environmental Noise Studio release notes

		<ul style="list-style-type: none"> Opening in demo mode
Rev:2.0.13.0	29/05/2025	Bugs <ul style="list-style-type: none"> NsEns - The slider on the histogram does not show intensity values NsENS deleting the inserted sources/masks leaves the masks Features <ul style="list-style-type: none"> Equipments Analysis
Rev:2.0.12.0	05/05/2025	Bugs <ul style="list-style-type: none"> T60 export to Excel: crashes when I select Cancel when prompted to save the XLS file. NsSis Report facade insulation and impact noise do not show the graph NsEns - Program crashes if user login or password is incorrect NsEns - Program crashes when moving cursor over timehistory NsEns import with local parsing does not import wave NsSis report non scaricabile (manca cartella \export) NsEns cursors no longer work Features <ul style="list-style-type: none"> NsSis ISO3382 indicators Global import and offline measurements Reports category
Rev:2.0.11.1	03/04/2025	Bugs <ul style="list-style-type: none"> NsSis tabella nel report : nel template togliere "Riferimento adattato" e inserire etichetta parametro misurato (per es. R' ecc.) NsSis Report facade insulation and impact noise do not show the graph NsSis "close project" with right click on tree does not work NsSis - Saving changes not working
